

ΣΕΜΙΝΑΡΙΑ ΑΣΤΡΟΦΥΣΙΚΗΣ ΕΑΡΙΝΟΥ ΕΞΑΜΗΝΟΥ 2026 - 2027

Date	Speaker	Title	Format
7-Oct-26	Jose Maria Ezquiaga (Niels Bohr Institute, Denmark)	Exploring the Uncharted Universe with Gravitational Waves	Virtual
14-Oct-26	Vivian Pulin (CNRS & U. de Montpellier, France)	Nu's from Cosmology	Virtual
21-Oct-26	Fabrizio Tavecchio (INAF, Merate, Italy)	Probing relativistic jet dynamics and dissipation with polarimetry	Virtual
4-Nov-26	Maxim Lyutikov (Purdue University, USA)	Astrophysical Fast Radio Bursts, the plasma physics frontier	In Person
9-Nov-26	Dimitris Vassiliadis (National Oceanic and Atmospheric Administration, USA)	Coronal and heliospheric activity in the latter half of Solar Cycle 25: NOAA and NASA satellite observations	In Person
18-Nov-26	Pavel Kroupa (University of Bonn, Germany)	The stellar IMF and its variation, and how to calculate the galaxy-wide IMF	Virtual
9-Dec-26	Gor Oganesyan (Gran Sasso Science Institute, Italy)	Gamma-ray bursts and electromagnetic counterparts of gravitational waves	Virtual
16-Dec-26	Macarena Garcia Marin (European Space Agency, Germany)	Galaxies with JWST	Virtual
13-Jan-27	Theodosios Chatzistergios (Max Planck for Solar System Research, Germany)	Long-Term Solar Variability and Changes in Solar Irradiance	Virtual
27-Jan-27	Nikolaos Stergioulas (Aristotle University of Thessaloniki)	Application of Machine Learning Algorithms in Gravitational Wave Astronomy	In Person

Τα διαδικτυακά σεμινάρια πραγματοποιούνται στις 18:00 ενώ τα δια ζώσης σεμινάρια στις 16:00 στην Αίθουσα Διαλέξεων του τομέα ΑΑΜ. Επισκεφθείτε την ιστοσελίδα μας για πληροφορίες σύνδεσης, ώρα διεξαγωγής και πιθανές αλλαγές!
